CONSUMER?

OUR MISSION: LOVELY DESIGN FOR LOVELY PEOPLE

WEB

We're experts in helping companies make the internet work for them.

We're not just designing you a website and leaving it.

PRINT

We've years of experience creating a wide range of printed materials - from business cards to letterheads, CD covers to posters and adverts.

ANYTHING ELSE?

Need specialist design work? We've done that too: touch screen interfaces, banner stands, exhibition materials, and shop front signs.

ABOUT US

We've started Consumer out of a simple frustration: there just **isn't genuinely nice design companies** out there who aren't ripping you off.

We're here to change that. We offer a **simple, friendly, no-nonsense design service for prices far below our competitors, without none of the loss in quality.**

We're professional designers the same as the rest, we're just more sensible with our pricing.

And we're not just good at one thing either - we're equally good at everything. **We've worked with clients ranging from Arctic Monkeys, to multi-million pound vehicle rental companies, right through to specialist art galleries,** creating them touch screen interfaces, advertisements to appear in NME, corporate identities, and everything else in between.

Don't just take our word for it though - get in touch with us and we'll show you how we've helped clients in the past, and how we can help you right now.

— CONSUMER

SERVICES WE OFFER
